

iSEE™ POWERHINGE

Maximum Packout, Minimum Blockage

The new and improved iSEE PowerHinge is a unique cold vault suction display designed to seamlessly integrate into the cooler door. Like the original version, this display utilizes iSEE's patented DisplayLoc suction to hang on the hinge side of the door, creating maximum packout and minimal shelf blockage. What's new: new "telescoping" capabilities allow ONE display to grow (or shrink) to fit most any cold vault door.

KEY FEATURES

SEAMLESS INTEGRATION

Slim design seamlessly integrates into the hinge side of the door - no blocking of products or shelf lighting

EASIER-TO-INSTALL PRODUCT HOLDERS
